

AIRMAX

Air Max Smoke Evacuator is suggesting
a better alternative for smoke & micro-dust.

Air Max Smoke Evacuator is suggesting a good solution for smoke, micro-dust, and even offensive odor control, which is an unavoidable by-products in laser treatment. With a triple filter system, AIRMAX enables to eliminate not only smoke and micro dust itself, but also offensive odors, which general smoke evacuators cannot so far. AIRMAX also adopts a flexible and self-stainable hose, which provides an user friendly environment, cause no assistant needed.

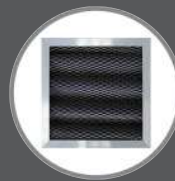

SYSTEM ADVANTAGES

- Triple Filter system shows the highest collection efficacy for micro dust and offensive odor
- Flexible, but self-sustainable hose, doesn't need an assistant
- Adopts powerful Air motor with 3/4 hp
- Adjustable intensity of air flow

INTEGRATED TRIPLE FILTER SYSTEM

*3 IN 1 SYSTEM : PREFILTER + CARBON FILTER + HEPA FILTER

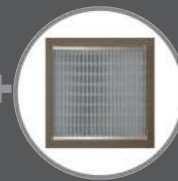

1. Pre-filter for Fine Dust Elimination : Dust Weight Arrange Efficacy 70~85% by ASHRAE 52-1
2. Carbon Filter for Offensive Odor Treatment : Collection Efficacy 80% Up
3. Hepa Filter for Micro Dust Elimination : 0.3micro Meter below dust/ Over 99.99% (Leak Test) . Over 99.97% (STD)

Prefilter

Carbonfilter

Hepafilter

Intergrated Filter

AIRMAX

SYSTEM SPECIFICATIONS

ELECTRICAL POWER	220V DC
ELECTRICAL FREQUENCY	50~60Hz
AIR VOLUME	74mmAq
WEIGHT	12KG
